

MEASURING LEARNING MOBILITY OUTCOMES

2020 NAFSA eConnection

THE PROJECT

The **Erasmus Skills** project provides a set of innovative tools to help Erasmus students to acknowledge and enhance the soft skills and competences gained thanks to their mobility experience.

The **Erasmus skills self-assessment** consists of two questionnaires on mobility-related KSAs to be fulfilled by the students themselves before & after their mobility. It helps students to become aware of their learning curve when studying abroad and supports them in making the most out of their experience.

ERASMUS SKILLS

SELF-ASSESSMENT QUESTIONNAIRES

- European Identity and Global Citizenship
- Cultural Knowledge
- Social Skills
- Curiosity/Openness attitudes
- Discipline Awareness
- Communication in different languages
- Adaptability to Change
- Teamwork in diverse environment
- Planning & Organising
- Creativity

Adaptability to Change

I understand that open-mindedness regarding new challenges is important.

1 2 3 4 5 6 7 8 9 10

I apply logic and reasoning to identify alternative solutions and approaches to problems.

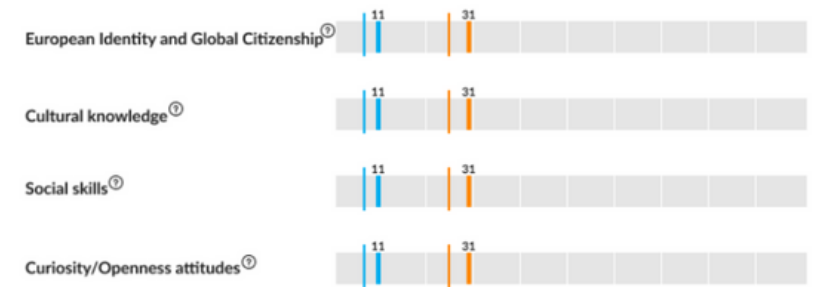

1 2 3 4 5 6 7 8 9 10

THE RESULT

RESULTS

How did my Erasmus period impact my personality and skills? The Erasmus skills self-assessment is a tool for you to understand your personal development. The assessment tested your skills, knowledge and attitudes, and analysed them in several traits that are essential to interact in an intercultural and global society. Based on your individual profile, you can see how you developed because of your Erasmus by comparing your results before and after mobility to those of your fellow students.

THE TOOL

ERASMUS SKILLS

HELLO WIM,

Check here how your Erasmus to Brussels changed you!

You can fill in the same assessment before and after your exchange.
